Abstract:

There is a some aspect of Rural Development which aims as welfare of the people, provision of better education facilities, Health services, recreational facility and change in social attitude of people. So many welfare facilities can improve the community organizer.

1)As a Guide :

Initiative and objective identification of a problem of community such as rural housing, drinking water, rural electrification, adult non formal education, women & child development of the rural areas. It is mostly related to social development, and should be a part of development plan, various areas find out problem and guide and Counselling to solve the particular problem.

2)ANAS ENABLER :

Processing the problem Encouraging organization, When we living in Rural Areas there are some NGO who work for the welfare of the people and social worker have a good inter personnel relation between the community member and it is co-ordinate relation in between the member of gram panchayat, Sarpanch and there people.

3)ASAN EXPERT :

Community organizer determine the various problem in community that what are the reason, what are causes, impact & control measure, to find out the problem and carryout search for various methods & technique apply social action to solve the problem. Some information such as technical information are need to solve rural problem, by knowing the problem. Evaluation it proper way for eradication of rural problem for development community there is a essential need. To motivate, monitor co-ordinate the activities of Govt. NGO to create learning environment.
To promote research activities in field literacy & continuing education.

4)SOCIAL THERAPIST :

The therapy implies the diagnosis & treatment of the community as a whole.

5)ASANTEACHER :

Community organizer is an good messenger of society upliftment for rural problem. He providing information knowledge to solve the problem. He may provide the Guidance & Instruction and promoting value of learning. To strengthen the existing literacy programme for rural people. To provide facilities to learn new skill, technique idea as per changing need. To provide learning facilities to all beyond age group of 6.

6)ASANACTIONIST :

Today there is essential need of at good activator in society specially activator has been attack on rural poverty through special self & wage employment programme and reform watershed development programme and include safe drinking water supply, rural sanitation agriculture and marketing for rural housing.

7)ANASGROUPWORKER :

By applying method of group work the social worker organize a group to find the group problem ultimately the community rural problem & It may be solve by effective group counseling & to work for eradication of rural problem in India there may be Increasing need of group worker and giving Training to worker staff and it may involved in development work to be more effective for rural development.

8)ASALEADER :

As a leader community organizer identify the problem of rural people & list it and to Organize the Community and told the problem & then to find out the method, technique, skill, and way to solve the problem for that purpose the will make a action plan & implement it some time it may take social action for solve that problem. To eradicate the problem of rural development there may be a need of Good Leader. With better co-ordination comes co-operation and proper management resulting a continuous wave of development rather than scatter development.

And some other aspects the community organizer can work effectively these are following.

SOLUTION OF THE PROBLEM IN COMMUNITY –

After find out the problem in community arranging the problem systematic and planed it. And next step is find out solution by various approaches to develop community.

- 1.To consolidate education relation to population family planning, nutrition & health care.
- 2.To improve the quality life of rural people & make awareness
- 3.Permanent Job opportunity will be provided and it produces large quantity. Time duration and implementation of govt. project will be increases more and to get a job of beneficiaries.
- 4.By changing in village life by various changing factor such as Natural, technological, Economical, culture and political factor. All these factor in field acting as a change agent by doing some social action by active person in community or a Social worker.
- 5.By appointing a social worker in each govt. department and private sector also most urgently.
- 6.Appointment of counselling exparte in different field such as family counselling, Pri. marital counselling, Family planning counselling, women in distress condition counselling, child right counselling, Health awareness and HIV/AIDS counselling in Govt. Hospital Area as well as Gross root level area.
- 7.To organize the Camp to eradicate the problem of crime by doing seminar, group discussion, poster presentation, on the wall of grampanchayat, school and awareness about crime, legal constitutional safeguard & punishment kalam on particular crime and its awareness.
- 8.To collect & provide basic tools & service/ facilities in disaster condition to establish school & Primary health center provide Doctor, Nurse and social security in distress condition and Rehabilitated the person who suffer from disaster condition.
- 9.To get help larger world level NGO for development of community and also assistance center as well as state for particular problem.
- 10.To appoint each & every industry social worker and in school also.
- 11.To eradicate the problem of exploitation in industry & permanent job opportunity by doing legal

provision.

12.To motivate the people for Active participation and decision in Gramsabha which is held at gram level.

13.Income generating programme should be held regularly and also promote self employment by farming and small scale industry.
