ABSTRACT

The games of Kabaddi and Kho-Kho are typical Maharashtrian Desi games and played throughout the country. Both the games are an outdoor strenuous but healthy and interesting games. These games are aggressive and semi contact. The game of kabaddi and kho-kho differ with each other in their skills,

techniques and strategies.

KEYWORDS :kabaddi and kho-kho players, socio-economic, t-ratio .

INTRODUCTION :

There are many psychological factors like socio-economic status, attitude self concept, adjustment etc. which influence the participation and performance of sportsmen in games and sports. The Socio-economic status of an individual plays an important role in their achievements in every filed. The Socio-economic status of the group and the status of an individual in his group influence competitive and co-operative behavior for different reasons and the different factors than those motivating people in the middle and upper economic group influencing the well

being of the players. Therefore, the present study, 'A comparative study of socio-economic status of kabaddi and kho-kho players' have been carried out.

REVIEW OF LITERATURE:

Grover et al (1987) found that the essential event which differentiate between intancy, childhood and adulthood are the process of growth and development and is largely depends on the socio-economic status.

Tanner (2001) stated that socio-economic status of an individual contribute to a great extent in

the growth and development.

METHODOLOGY:

SELECTION OF SUBJECT:

Total 100 Kabaddi and Kho-Kho players who represented inter collegiate tournament, Nagnath College, Aundha Nagnath Dist. Hingoli, have been selected.

ADMINISTRATION OF THE TEST:

Kapoor and Kocher (1984) socio-economic status scale were distributed to Kabaddi and Kho-Kho players, before filling the SES Scale instructions were given by the investigator to the players. The scale seek information about respondents Kabaddi and Kho-Kho players. The subjects were requested to give their exact information about their families and the confidently was assured. There are different possible answers to each (✓) the question which suited them most and tick mark against it.

STATISTICAL ANALYSIS:

To analyze the data, t-ratio were used to compared the study of socio-economic status of Kabaddi and Kho-Kho players.

RESULTS AND DISCUSSION:

The result of the present study are presented in Table 1

**TABLE 1:
MEAN SCORE, STANDARD DEVIATION AND T-RATIO OF SOCIO-ECONOMIC STATUS OF KABADDI
AND KHO-KHO PLAYERS.**

Players	No	Mean score	S.D.	t-value
Kho-Kho	50	10.30	2.11	2.78*
Kabaddi	50	12.13	2.96	

* Significant at 0.01 level.

Table 1 reveals the socio-economic status of Kabaddi and Kho-Kho players obtained the mean values of 10.30 and 12.13 respectively. The obtained t = 2.78 significant at 0.05 which means the significance difference as found out between Kabaddi and Kho-Kho players. It revealed that Kabaddi and Kho-Kho players had differ in socio-economic status in favour of Kabaddi players.

CONCLUSION:

There are significant differences in socio-economic status between Kabaddi and Kho-Kho players. The Kabaddi players have got more socio-economic status than Kho-Kho players.

RECOMMENDATION:

The experience of the investigator during the period of this study as well as the findings of this

study may serve as a guide line for the research worker in the field of physical education and sports. The findings of the present study would lead to the following recommendations.

1. A similar study could be done in different games and sports.
2. The analysis of various factor need to be study which differentiate the socio-economic status among the two different teams.
3. A similar study could be done at high level players like state and national level..
