Commerce and Education College, Gargoti, Kolhapur.

improvement programmers for promoting of women empowerment is important. Keeping in view this importance of the research work on women empowerment, the present take a look at pursuits at discussing a few critical components of women's empowerment via micro entrepreneurship development and SHGs. those elements encompass fame of women SHGs, blessings of Micro Corporation in building women's empowerment, scope of micro agency development and so forth.

ABSTRACT

Women's entrepreneurship contributes to the financial well-being of the family and communities and additionally reduces poverty. It ensures us of a's economic increase and improvement. The empowerment of women to a huge quantity depends on taking element in some development sports. Consequently the advertising of micro and small scale organizations has been diagnosed as a critical approach for advancing the monetary empowerment of women's. On the household stage, women's microenterprises and small scale

corporations play a crucial function in making sure the survival of negative family and in building up women's self-assurance, skills and socio monetary popularity. But it is visible that women are the most deprived class inside the society specifically in developing nations. In India additionally the monetary fame of women's could be very low specifically in rural regions and opportunities of incomes are very much less. In this situation the Self assist agencies (SHGs) are taken into consideration as institutional innovation that fosters empowerment of rural women. Therefore the want for designing distinctive self-hired and other

KEYWORDS: Self Help Group, Women-Entrepreneurship, Empowerment.

INTRODUCTION

Entrepreneurship performs an eminent role in growing an employment possibility for rural communities, providing self-employment for those who've started-up a commercial enterprise of their own and enhancing the financial fame of the rural area as nicely. Now women are also interested to

establish their personal enterprise as professionally each in the urban and rural regions due to conquer poverty, generate circle of relatives income and growing preferred of living. The women's development isn't nearly approximately lowering poverty by growing productiveness, however also approximately women's liberation and empowerment. So it's far essential to empower women socially, economically and technologically to allow them to stand in society on their personal with self-belief. It consists of each control over assets and beliefs, greater self-confidence and an inner transformation of one's focus that allows one to conquer external affairs. In current competitive international, there are numerous methods via which women get themselves empowered. Entrepreneurship development and earnings producing sports are a feasible solution for empowering womens who results in economic independence, the opportunity to have manipulated over their lives, self-reliance, self-determination, and a way to acquire for themselves. The entrepreneurship of womens is taken into consideration to be an effective tool to the monetary improvement and empowerment of women. Considering this need the government of India has all started the procedure of empowering women via various country wide rules and developmental programmers and organizing women in Self help companies. The Self help businesses (SHGs) is an organization of rural bad; particularly of women for the empowering women by using offering micro credit to undertake the entrepreneurial activity.

CONCEPT OF WOMEN EMPOWERMENT AND ENTREPRENEURSHIP:

According to United Nations Development affairs (1994) empowerment is an action which enables individuals or groups to change balances of ability in social, bread-and-butter and political relations in society. Therefore, womenempowerment agency giving the accommodation and agency to absolute women's activity appear adapted goals. It is a action by which women accretion greater ascendancy over assets (income, knowledge, information, technology, accomplishment and training), accommodation authoritative process, enhance the self-image of women, to become alive participants in the action of change and to advance the abilities to advance themselves. "Women Entrepreneur" is a being who accepts arduous role to accommodate her claimed needs and become economically independent. The Government of India has authentic women entrepreneurs as an action endemic and controlled by women accepting a minimum banking absorption of 51 per cent of the basic and giving at atomic 51 per cent of the application generated in the action to women. In the simplest sense, women entrepreneurs are those women who yield the advance and adapt the business or industry and accommodate application to others. Entrepreneurship development a part of rural women helps to enhance their claimed capabilities and access accommodation authoritative cachet in the ancestors and association as a whole.

WOMEN ENTREPRENEURSHIP STATUS IN INDIA:

The idea of "Women's entrepreneurship" is turning into a international phenomenon and in India it have become prominent inside the latter half of of the Nineteen Eighties. Now women's entrepreneurship has been identified as a critical untapped supply of monetary growth. In India it is estimated that women marketers currently incorporate approximately 20% of the whole range of entrepreneurs with the share growing every year. If the prevailing developments continue, it's miles probable that in any other 5 years women will incorporate 30 % of the entrepreneurial force. Despite the fact that women own around 15% of the overall corporations in the small sector, the gross output of these units is just five.5% of the entire output of the SSI area. In comparison, in developed nations including United States, women's personal almost 85 lakh small agencies and the number of women's-owned startups goes at nearly twice the rate of their male opposite numbers. India has 425 million employees, 128.5 million are women's, 112 million are in rural areas, 20 million are in urban regions, best 9% of India's labor pressure is within the prepared region; 93% is in unorganized area.

SCOPE OF THE STUDY:

This look at might be of fantastic help to the implementing corporations to convey vital enhancements within the self-assist organizations for attaining the general improvement of women. The information on those factors might be used to expand strategies to inspire self-help institution members for their more advantageous participation inside the group. Similarly the observe might spotlight the role and significance of micro businesses

in women empowerment.

ROLE OF SHG IN RURAL WOMEN EMPOWERMENT:

Participation in income generating sports enables within the usual empowerment of women. The SHGs had major effect on social and monetary lifestyles of rural women. It empowers womens and trains them to take energetic component inside the socio-economic development of the kingdom and make them sensitized, self-made and self-disciplined. SHGs are constantly striving for a higher destiny for rural women as contributors, decision-makers and beneficiaries within the home, economic, social and cultural spheres of lifestyles. But because of sure constraints like gender inequality, exploitation, women torture, numerous SHGs is not prepared nicely and effectively. The SHGs have inculcated terrific self-assurance within the minds of rural womens to succeed in their daily life. The SHGs carry out the capacity of women in molding the community in proper perspective and discover the initiative of women in taking the entrepreneurial ventures. Women's participation in SHGs enabled them to find out internal strength, benefit self-assurance, social, monetary, political and mental empowerment and potential constructing. Participation of women in SHGs makes a vast effect at the empowerment in social component additionally. SHGs facilitates women come out in open and discuss their issues. SHGs additionally enable to result in cognizance among rural women's approximately savings, education, fitness, environment, cleanliness, family welfare, social forestry, and so forth. Again SHGs will be related to literacy programmes run by way of government and it could be made a crucial part of SHG activities. Raised literacy degree will be useful for the SHG individuals to conquer cognitive constraints and to understand government rules, technical information and gaining required capabilities. Empowerment need to be extraordinarily prompted in order that women's can exercise a stage of autonomy. There have to also be 'self-empowerment' so that women can study their personal lives. The process of 'mastering with the aid of doing and incomes' would really empower rural women. Increasingly rural women need to be concerned in self-employment. Self-employment in agriculture, village and small industries and retail exchange and offerings need to be elevated. Self-employment is likewise conducive to the improvement of person initiative and entrepreneurial talent and gives extra non-public freedom. The introduced advantage is that the institution of circle of relatives stays undisturbed. The emergence of self-assist companies on this context is a welcome development. The corporations might offer an everlasting forum for articulating their wishes and contributing their perspectives to improvement.

Self-assist institution must be developed as an organization for economic intermediation in addition to human beings community instead of an automobile for credit score disbursal only. Self-assist institution is able to conquer most of the realistic problems encountered in the implementation of the various income generating programmes for the financial empowerment of women.

The SHGs are a feasible opportunity to attain the goals of rural improvement and to get community participation in all rural improvement packages. The possible effects of women's entrepreneur through SHGs at family level are self-employment, sustainable livelihoods, enhanced social dignity and higher repute of women's. SHG would cause blessings now not handiest to the man or woman groups but also for the circle of relatives and network as a whole via collective action for development. Empowerment isn't just for assembly their financial needs however additionally for more holistic social development.

MICRO ENTERPRISES FOR RURAL WOMEN:

Micro businesses for rural women's and its areas of development: Micro businesses: The idea of micro enterprise and micro finance become pioneered in 1976 with the aid of Nobel Prize recipient Muhammad Yunus, founding father of the Grameen bank, in Bangladesh. The organizations from small scale to medium scale grouped collectively are known as "Micro, Small and Medium enterprises" (MSME). Micro enterprises mainly focus on developing and making use of the entrepreneurial abilities and ability of rural women under poverty line to fulfill local needs. It enables to generate employment for a number of humans inside their very own social system. this is more useful for women in rural areas as it allows them to add to the own family profits at the same time as taking care of their own home and cattle mission. The micro entrepreneurship is strengthening the women empowerment and does away with the gender inequalities.

DEVELOPMENT AREA:

Depending on quantity of things ranging from landholdings, subsidiary occupations, agro climatic situations and socio-non-public characteristics of the rural women and her member of the family the regions of micro-organizations additionally differ from location to region. The micro organisations are classified underneath three principal heads:

- Micro-organization development associated with household based totally operations, it's far generally handicraft associated firms where women carry out sports like knitting, sewing, weaving, embroidery and so forth.
- Now Indian women marketers are showing their presence in exceptional regions like herbal advertising, meals processing, farming, prepared made clothes, dairying, education of handicrafts and handmade present items, consisting of bangles, glass, utensils, via the usage of wooden, stone, and metals like bronze, iron & metallic, making furniture with the assist of cane and bamboo, statues of Indian deities, pots, vessels, different ornamental pieces, making baskets from straw, tailoring & embroidery, carpet making and retailing, agarbatti / Chalk / Candle / Phenyl coaching, coaching of yarn, door mats, rope, toys, coaching of jute baggage/ Baskets/ Hats, Retailing and Salesman and so forth. Therefore it could be said that entrepreneurship is an energetic, multidimensional procedure, which helps women to comprehend their complete identification and power in all spheres of life.
- Micro enterprise development associated with agriculture and allied agricultural activities like cultivating to organic greens, flora, oil seeds and seed manufacturing are some of the regions except taking on mushroom developing and bee keeping. Some extra regions may be like dehydration of culmination and vegetables, canning or bottling of pickles, chutneys, jams, squashes, dairy and different products that are ready to consume. This is not unusual shape of microenterprise in rural areas.
- Micro-corporation improvement related to livestock control activities like dairy farming, fowl farm, cattle feed production and production of vermin composting the use of the animal waste may be an vital vicinity in which women can make use of each her technical competencies and uncooked substances from the farm and livestock to earn full-size income and small scale agro-processing gadgets.

BENEFITS OF MICRO ENTERPRISES IN BUILDING WOMEN EMPOWERMENT:

Micro Enterprises in rural location can help to empower women in rural regions. A micro agency is not most effective enhancing country wide productivity; generate employment but also supporting to expand financial independence, non-public and social abilities among rural women. Following are a number of the personal and social skills, which had been evolved as result of taking over organization among rural women:

- financial freedom
- progressed well known of living
- Self esteem
- Decorate Awareness
- Experience of Achievement
- Accelerated Social Interaction
- Engaged in Political Activities
- Improved participation in social meetings
- Improvement in leadership qualities
- Involvement in solving troubles related to women and community
- Decision making potential in circle of relatives and network

The rural women are having fundamental indigenous information, talent, capability and sources to establish and manipulate agency. Consequently promoting entrepreneurship through micro corporation approach has been diagnosed as the solution for incorporating womens into the overall monetary improvement process and permits eradicating the rural poverty in developing economies to a larger quantity. sooner or later we are able to say that economic empowerment of rural women through micro entrepreneurship brought about the empowerment of womens in so many things including socio-economics opportunity, political participation and illustration, social equality, non-public proper, family development, market improvement, community development, societal improvement, kingdom improvement and at remaining development of the state.

WOMEN EMPOWERMENT VIA ENTREPRENEURSHIP:

Through entrepreneurship improvement confidence stage of women are improved and gave them a prosperous destiny. Now rural women are engaged in small scale entrepreneurship programs with the assist of Self-help groups via which they have been economically empowered and accomplishing superb repute in circle of relatives and community. Entrepreneurship additionally enables to bring about consciousness amongst rural women approximately savings, schooling, health, environment, cleanliness, family welfare, social forestry and so forth. Micro corporation is the satisfactory tool for rural women as it enables them to feature to the own family earnings and as such it affords circle of relatives contributors to a better life style, consisting of schooling for the kids and improvement of own family health. Some factors of household decision making are suggested to have modified due to women's contribution in own family income. Maximum of the guys now discuss with their wives in vital own family matters. Promoting entrepreneurship via micro enterprise approach enables removing the rural poverty in developing economies to a bigger quantity.

CONCLUSION:

It may be stated that these days we are in a higher function wherein women participation inside the area of entrepreneurship is growing at a good sized fee, efforts are being taken on the economic system in addition to global level to decorate women involvement in the business enterprise quarter. At present women have broken the monopoly of fellows and proved that they may be no longer inferior to guys. The SHGs and micro organizations had main impact on social and economic life of rural women. The have a look at concludes that there has been a growth in self-self-assurance, self-reliance and independence of rural women due to the involvement within the entrepreneurial and different activities of SHGs. Now women entrepreneurs are aware of possibilities available to them, however there may be scope for improvement in it. The monetary popularity of the women is now prevalent as a hallmark of a society's degree of improvement and consequently it turns into vital for the authorities to border guidelines for improvement of entrepreneurship among women. Raised literacy level will be beneficial for the SHG contributors to conquer cognitive constraints and to apprehend government rules, technical expertise and gaining required abilities.
