ABSTRACT:

-"Destiny of India is being shaped in its classrooms."- Kothari Commission (1964-66) Education is decisive determinant of Economic and Social expansion. Investment in education amplifies the productivity in all sectors of the economy. Development of education depends on large numbers of factors including the human and physical resources. There is a general notion that condition of school's learning environment has an important impact on academic aspect of student. Schools play a major role in the society for Education, Economy, Environment, Formation of culture and Manpower to nation.

Abstract Report: The Title Accurately Said The Study was About.

INTRODUCTION:

It is very important for a school to be equipped with basic facilities or amenities for healthy and harmonious development of student. The facilities that are needed to facilitate effective education development and learning environment in an educational institution includes the separate toilets for girls, library, boundary wall, computers, play ground etc. In developing country like India some schools are equipped with latest facilities and amenities and on other hand many schools are looking for basic facilities.

Introduction Report: This Article Includes Full Introduction, Methods, Results & Introduction Section.

METHODS & MATERIALS:

The primary goal of this project was to investigate the availability of human and physical resources in different kinds of primary schools of Nainital. By using self-made tool (Checklist) investigator collected information from different primary schools. For reducing sampling error, there were three schools of private sector and three schools from government sector. Descriptive analysis technique was used for derivation of meaningful findings.

Methods & Materials Report: Tables/Boxes/Diagram & Images are Used to Explain Specific Points or Background Information. Figures That The Plotted Parameters are Clearly Mentioned.

RESULT:

Must add the result to your article.

Result Report: Result is blank.

CONCLUSION:

This investigation presents a distinct picture of government and private primary schools in Nainital district in terms of human resources and physical infrastructure. In all the three selected indicators, private primary schools remained a forerunner. However, private schools also need some reforms. If government takes some initiatives for teachers and schools than government schools can be also a forerunner.

Conclusion Report: The Text is Rounded off with a Conclusion that Discusses the Implication of The Findings & Ideas Discussed & Their Impact on Future Research Direction.
