How to Write Articles

Here are a few basic steps to take to craft an interesting, informative article.

Method 1 of 3: Come Up With An Idea

1. Get to know your audience. Decide who you need to write for before proceeding with planning or writing an article. Identify the needs of your readership. What do your readers need to know? How does your own knowledge match up against the information they need? This will be the easiest way for you to find a topic to write about
2. Be unique. If you are writing an article about something that other people are also writing about, try to be unique in how you approach the material
3. Be passionate. You should care about the topic you choose to write about. Your enthusiasm will show in your writing and it will be much more engaging for your readers

Method 2 of 3: Research Your Idea

1. Learn the basics. Get the general explanation of whatever you are trying to write about. This will give you a basic framework for what to look for as you research.
2. Find reliable sources. Now that you know what to look for, research your topic. You can use the internet, a library, conduct interviews, watch documentaries, or whatever you feel is appropriate to teach you everything you need to know about your topic. Be an expert!
3. Get different types of material. During your research, look for material that isn't text. This can be used or altered to add to your article.

Method 3 of 3: Write Your Article

1. Decide your length. Does this article have a word count? Do you need to fill a certain number of pages? Consider what type of content you're writing about and how much space that can fill, as well as how much needs to be written in order to cover the topic adequately, before proceeding with writing your article.
2. Outline your article. Before you begin formal writing, you will want to outline your article.
3. Edit your work. Before you submit your work, you will want to do some editing and revision. If time allows, wait for a day or two before editing
4. Respect the rights of other writers. If you are using information from an external source, be sure to cite the source at the bottom of the article.
5. Submit your work. When you've finished, submit your work in the appropriate manner.

ABSTRACT:

:-Traditionally, women in Indian society suffer from various social and cultural handicaps and it is felt that unless the women are sufficiently empowered, the socio-economic development may be difficult to achieve; centuries old social practices, beliefs, attitudes and biases – against the women may be difficult to overcome in a short period of time.

Abstract Report: The Title Accurately Said The Study was About.

INTRODUCTION:

The role of women worldwide is undergoing a dramatic change. Women today share the podium with men in almost all fields, be it kitchen or in defense working women are no longer a rarity and are now accepted as an integral part of the working force.

Introduction Report: This Article Include Full Introduction, Methods, Results & Introduction Section.

METHODS & MATERIALS:

The present study is confined to Rohtak city which is just 70 kms from National Capital, Delhi, located on National Highway No. 10, with a population of about 37 lakh as per 2011 census. The city is considered as educational hub because it has two universities, almost twenty two degree colleges, four engineering colleges, two polytechnics and other several educational institutions such as schools and coaching centres both for boys and girls. These educational facilities also play an important role in attracting more people from rural areas.

Methods & Materials Report: The study methods are one of the most important parts used to judge the overall quality of the paper.

RESULT:

It was analysed from the above table that there are various reasons which contribute to the increased level of stress in women. The women are mostly treated as slaves to society and its tradition. Born as a woman, she has no freedom in social / economic / political and cultural arena of life. The women in India have always been relegated to a secondary status vis-à-vis men.

Result Report: Figures are Imported to Provide Explanation for Background Information. Conclusion of This Paper Clearly Supported Results.

DISCUSSION:

Must add the result to your article.

Discussion Report: Discussion is blank.
