ABSTRACT:

Food is fundamental physiological human need. India is striving utmost to raise agricultural production to meet increasing demands of growing population. India became independent in the food production is the great achievement of the country.

Abstract Report: The Title Accurately Said The Study was About.

INTRODUCTION:

India is one of the major producers of food-grains, vegetables, fruits, milk and other animal products. India almost became self sufficient in most of these products. The country is far better in food security today than it ever was during the last 70 years.

Introduction Report: This Article Include Full Introduction, Methods, Results & Introduction Section.

METHODS & MATERIALS:

In the present study, availability of various food stuffs in rural area of Yawal tehsil have been explained. For this purpose, primary and secondary data are used.

Methods & Materials Report: Tables/Boxes/Diagram & Images are Used to Explain Specific Points or Background Information. Figures That The Plotted Parameters are Clearly Mentioned.

RESULT:

Must add result in your article.

Result Report: Result reports is blank.

CONCLUSION:

Land use is one of the determinants of nutritional status. Approximately 33 percent area of the tehsil is under forest, net cropped area is also up to satisfaction. This region is unique in respect of cropping pattern.

Conclusion Report: The Text is Rounded off with a Conclusion that Discusses the Implication of The Findings & Ideas Discussed & Their Impact on Future Research Direction.
