

How to Write Articles-

Here are a few basic steps to take to craft an interesting, informative article.

Method 1 of 3: Come Up With An Idea

1. Get to know your audience. Decide who you need to write for before proceeding with planning or writing an article. Identify the needs of your readership. What do your readers need to know? How does your own knowledge matchup against the information they need? This will be the easiest way for you to find a topic to write about
2. Be unique. If you are writing an article about something that other people are also writing about, try to be unique in how you approach the material
3. Be passionate. You should care about the topic you choose to write about. Your enthusiasm will show in your writing and it will be much more engaging for your readers

Method 2 of 3: Research Your Idea

1. Learn the basics. Get the general explanation of whatever you are trying to write about. This will give you a basic framework for what to look for as you research.
2. Find reliable sources. Now that you know what to look for, research your topic. You can use the internet, a library, conduct interviews, watch documentaries, or whatever you feel is appropriate to teach you everything you need to know about your topic. Be an expert!
3. Get different types of material. During your research, look for material that isn't text. This can be used or altered to add to your article.

Method 3 of 3: Write Your Article

1. Decide your length. Does this article have a word count? Do you need to fill a certain number of pages? Consider what type of content you're writing about and how much space that can fill, as well as how much needs to be written in order to cover the topic adequately, before proceeding with writing your article.
2. Outline your article. Before you begin formal writing, you will want to outline your article.
3. Edit your work. Before you submit your work, you will want to do some editing and revision. If time allows, wait for a day or two before editing
4. Respect the rights of other writers. If you are using information from an external source, be sure to cite the source at the bottom of the article.
5. Submit your work. When you've finished, submit your work in the appropriate manner.

ABSTRACT:

Development of a backward region is hidden in the proper utilization of human resources and natural resources available in particular region. To utilize available human and natural resources it is necessary to have suitable planning in backward areas. The development of a particular region is closely connected with the human resource development, employment generation and infrastructural development.

Abstract Report: The Title Accurately Said The Study was About.

INTRODUCTION:

In the situation of non-availability of work to the extent needed for the entire labour force increasing trend of population and unemployment, agriculture sector alone cannot be in position to create additional employment opportunities which can absorb the surplus labour. The employment generation has been far from satisfactory with production getting more capital intensive, the growth of employment tended to be low order.

Introduction Report: This Article Include Full Introduction, Methods, Results & Introduction Section.

METHODS & MATERIALS:

Grossly the study is based on both primary and secondary data. Primary data includes interviews, comments, observations, opinion, questionnaire (questions with beneficiaries of PEMGP). There were totally 30 respondents (sample size) selected from PME GP beneficiaries who are registered through KVIB.

Methods & Materials Report: Tables/Boxes/Diagram & Images are Used to Explain Specific Points or Background Information. Figures That The Plotted Parameters are Clearly Mentioned.

RESULT:

Must add result in your article.

Result Report: Results are as per aims and objective and useful to further research .

CONCLUSION:

PME GP scheme under KVIB, DIC has made a maximum efforts to create job opportunities in rural as well as in urban areas in non farm sector. It also open up the way to the youth of different sections to get self employment opportunities at the same time it has reduced the migration level.

Conclusion Report: The Text is Rounded off with a Conclusion that Discusses the Implication of The Findings & Ideas Discussed & Their Impact on Future Research Direction.
