ABSTRACT:

Many interdisciplinary works have underlined the importance of lexical knowledge in terms of vocabulary knowledge. Lexical knowledge is an inseparable part in the knowledge of language. However, in the compilation of electronic dictionary, the technology can be involved in all the stages, because it is maximum utilized in both mental and mechanical works almost equally.

Abstract Report: The Title Accurately Said The Study was About.

INTRODUCTION:

We familiarize that usage of multilingual and multidirectional electronic dictionaries necessitates the individuals to be having sound knowledge so as to pursue a successful career in their respective disciplines. Hence, application of computers is pervasive in all disciplines including natural language processing and machine translation. The availability of hardware and software alone will not be enough.

Introduction Report: This Article Include Full Introduction, Methods, Results & Introduction Section.

METHODS & MATERIALS:

The following phases were attempted for having accomplished the proposed dictionary.

Methods & Materials Report: Tables/Boxes/Diagram & Images are Used to Explain Specific Points or Background Information. Figures That The Plotted Parameters are Clearly Mentioned.

RESULT:

Must add result in your article.

Result Report: Results are as per aims and objective and useful to further research .

CONCLUSION:

After testing and proving the hypothesis, it is quite obvious that the technology based dictionary can magnet the learners who learn English or Tamil as a second language, towards the learning process effectively. It is concluded that the current technology is inevitable in developing not only the language teaching and learning tools, but also in compiling various kinds of dictionaries in natural language learning process.
