ABSTRACT:

To understand the anxiety disorders among higher secondary school children in the present scenario is unavoidable. The sample consists of a total number of 150 higher secondary school children in Thiruvananthapuram district, Kerala State. The data were collected using the tool SCARED (Screen for child anxiety related disorders).

Abstract Report: The Title Accurately Said The Study was About.

INTRODUCTION:

In India, the main documented cause of anxiety among school children and adolescents is parent’s high educational expectations and pressure for academic achievement (Deb, 2001). In India, this is amplified in secondary school where all 16 year old children attempt the class X first board examination, known as the secondary examination.

Introduction Report: This Article Include Full Introduction, Methods, Results & Introduction Section.

METHODS & MATERIALS:

The sample for the present study was drawn from various schools of Thiruvananthapuram District (Kerala State). The type of sampling technique used were convenience sampling. The sample for the present study consists of 150 participants, i.e., 75 higher secondary girls and remaining 75 higher secondary boys.

Methods & Materials Report: Tables/Boxes/Diagram & Images are Used to Explain Specific Points or Background Information. Figures That The Plotted Parameters are Clearly Mentioned.

RESULT:

Analysis of t-test
The results of t-test on the basis of the variables under study are given below.
1.Comparison of gender difference of anxiety related disorders in higher secondary students.

Result Report: Figures are Imported to Provide Explanation for Background Information. Conclusion of This Paper Clearly Supported Results.

CONCLUSION:

The present study mainly focuses on the anxiety disorders among higher secondary school children. Results of the study imply that there is gender difference in anxiety related disorders among higher secondary children. With regard to the locale, and parents occupation won’t contribute any anxiety disorders.

Conclusion Report: The Text is Rounded off with a Conclusion that Discusses the Implication of The Findings & Ideas Discussed & Their Impact on Future Research Direction.
