ABSTRACT:

The research includes adjustment and emotional maturation of single family students in family type and its effects. 40 college girls and 40 college boys from five colleges of Karad city are chosen for study.

Abstract Report: The Title Accurately Said The Study was About.

INTRODUCTION:

Parents play a vital role in the emotional, social, economic development of college students. As a result they express affection for closer ones as well as become proud and introvert. According to critic G.H. Mode (1934) “Social interaction is very important, In it they imitate their parent and start interrespect themselves”.

Introduction Report: This Article Include Full Introduction, Methods, Results & Introduction Section.

METHODS & MATERIALS:

- 1)Sample – 40 boys and 40 girls of Arts, Commerce and science faculties studying in the five colleges of Karad city.
- 2)Instruments – Following psychological test will be conducted-

Methods & Materials Report: Tables/Boxes/Diagram & Images are Used to Explain Specific Points or Background Information. Figures That The Plotted Parameters are Clearly Mentioned.

RESULT:

Must add result in your article.

Result Report: Results are as per aims and objective and useful to further research .

CONCLUSION:

Adjustment and EM of the single parent college students is studied thoroughly in order to get following findings –  
1.No significant change is observed between single parent students living in joint and nuclear family types.  
2.EM level of the single parent girl students living in joint family type is higher than the single parent students living in nuclear families.

Conclusion Report: The Text is Rounded off with a Conclusion that Discusses the Implication of The Findings & Ideas Discussed & Their Impact on Future Research Direction.
