ABSTRACT:

Climate is one of the main determinants of agricultural production and it further leads to impact on social and economical conditions in the rural areas. Recent years across the World climatic variability is significant concern as it affects agricultural productivity and ultimately the livelihood of the people.

Abstract Report: The Title Accurately Said The Study was About.

INTRODUCTION:

Climate is one of the main determinants of agricultural production and it further leads to impact on social and economical conditions in the rural areas. Recent years across the World climatic variability is significant concern as it affects agricultural productivity and ultimately the livelihood of the people. This is the main threatening challenge before the mankind.

Introduction Report: This Article Include Full Introduction, Methods, Results & Introduction Section.

METHODS & MATERIALS:

Climate is one of the main determinants of agricultural production and it further leads to impact on social and economical conditions in the rural areas. Recent years across the World climatic variability is significant concern as it affects agricultural productivity and ultimately the livelihood of the people. This is the main threatening challenge before the mankind.

Methods & Materials Report: Tables/Boxes/Diagram & Images are Used to Explain Specific Points or Background Information. Figures That The Plotted Parameters are Clearly Mentioned.

RESULT:

Must add result in your article.

Result Report: Results are as per aims and objective and useful to further research .

CONCLUSION:

It is difficult to measure the social and cultural impacts of drought. The lack of consensus about how to measure drought in the first place ensures that such impacts can always be debated and contested. However study illustrates that there are substantial impacts that cannot be ignored.

Conclusion Report: The Text is Rounded off with a Conclusion that Discusses the Implication of The Findings & Ideas Discussed & Their Impact on Future Research Direction.
