

#### How to Write Articles-

Here are a few basic steps to take to craft an interesting, informative article.

##### Method 1 of 3: Come Up With An Idea

1. Get to know your audience. Decide who you need to write for before proceeding with planning or writing an article. Identify the needs of your readership. What do your readers need to know? How does your own knowledge matchup against the information they need? This will be the easiest way for you to find a topic to write about
2. Be unique. If you are writing an article about something that other people are also writing about, try to be unique in how you approach the material
3. Be passionate. You should care about the topic you choose to write about. Your enthusiasm will show in your writing and it will be much more engaging for your readers

##### Method 2 of 3: Research Your Idea

1. Learn the basics. Get the general explanation of whatever you are trying to write about. This will give you a basic framework for what to look for as you research.
2. Find reliable sources. Now that you know what to look for, research your topic. You can use the internet, a library, conduct interviews, watch documentaries, or whatever you feel is appropriate to teach you everything you need to know about your topic. Be an expert!
3. Get different types of material. During your research, look for material that isn't text. This can be used or altered to add to your article.

##### Method 3 of 3: Write Your Article

1. Decide your length. Does this article have a word count? Do you need to fill a certain number of pages? Consider what type of content you're writing about and how much space that can fill, as well as how much needs to be written in order to cover the topic adequately, before proceeding with writing your article.
2. Outline your article. Before you begin formal writing, you will want to outline your article.
3. Edit your work. Before you submit your work, you will want to do some editing and revision. If time allows, wait for a day or two before editing
4. Respect the rights of other writers. If you are using information from an external source, be sure to cite the source at the bottom of the article.
5. Submit your work. When you've finished, submit your work in the appropriate manner.

ABSTRACT:

Periodic markets (Hats), that significantly control the livelihood of the sellers and the consumers in the rural sector of West Bengal, are the temporary markets held on particular day or days of the week at some fixed locations. The periodic markets fulfill the demand of consumers in the society where permanent markets are absent or the daily marketing system is not possible.

Abstract Report: The Title Accurately Said The Study was About.

INTRODUCTION:

Periodic markets form a characteristic feature of market system in the rural areas of the developing countries in the present day. These types of markets in rural West Bengal, which are commonly known as hats, play an important role in the process of economic development in the rural areas of the state.

Introduction Report: This Article Include Full Introduction, Methods, Results & Introduction Section.

METHODS & MATERIALS:

Recorded information and data on the origin and development of periodic markets in this part of West Bengal are very scarce and not readily available. Hence the study has been based largely upon the primary data generated through field survey using systematically framed questionnaires and collecting associated background information regarding other relevant facts from the people residing around the existing market centres.

Methods & Materials Report: Tables/Boxes/Diagram & Images are Used to Explain Specific Points or Background Information. Figures That The Plotted Parameters are Clearly Mentioned.

RESULT:

Must add result in your article.

Result Report: Results are as per aims and objective and useful to further research .

CONCLUSION:

Must add Conclusion in your article.

Conclusion Report: Thus,the research have wider scope for new academician and research scholars.
