ABSTRACT

Education is mean of socio-economic transformation of a region. It develops the intellectual level of human being. It also determines the standard of living of people. But educational facilities are not available everywhere. The displaced people by different reasons have been resettled in new locations and environment. Displacement affects on the educational development of rehabilitated people.

Introduction

Developmental projects have been implemented in the world for economic development of a region. Such implementation of projects causes to displacement of native people. Displaced people are resettled in the command area of concern irrigation project. Many times such locations are not similar to their original places. s were initiated by western industrialization through their colonial rule and further developed later.

A Good Introduction :-

Depict the significance (importance) of the study - why was this value doing in any case? Give a wide connection. Extremely briefly depict the exploratory configuration and how it achieved the expressed destinations.

Materials

The present research work is based on primary and secondary sources of data. The primary data, as the main source, has been generated through intensive field work. The data for various purposes have been collected at family. Besides this, an interview and discussion techniques have been used to extract necessary data from officials, social activists, village leaders and affected people.

A Good Materials :-

Materials may be accounted for in a different passage or else they may be distinguished alongside your systems.

Result

Must add result in your article.

A Good Result :-

Results are as per aims and objective and useful to further research .

Discussion

It is evident from present study that the general literacy has been increased greater level. The literacy in the period before displacement was just 18.07 per cent which increased to 62.33 per cent in the present rehabilitation period. It is observed that there is variation in the male-female literacy also. Before displacement, only, 4.77 per cent females and 31.03 per cent male were literate.

A Good Discussion :-

Choose if every speculation is bolstered, rejected, or in the event that you can't settle on a choice with certainty. Don't just reject a study alternately a piece of a study as "uncertain."

REVIEWER COMMENTS

- My remarks here are concerned singularly with the association of the composition.
- Thought of these focuses will, I accept, lead to an enhanced report that better shows the key ideas and conclusions.
- Generally, this is a reasonable, brief, and elegantly composed original copy.
