ABSTRACT

A kitchen is a part of a room used for cooking. The main function of a kitchen is cooking, however it may also be used for dining, storage entertaining, dishwashing and laundry .Planning a kitchen is very important. A kitchen can be more than just a place to prepare meals. For many families, it's the heart of the home and "nerve centre" where family members gather to talk, work, eat meals and sometimes even entertain guests especially if they are close friends.

Introduction

The kitchen is one of the busiest and most expensive rooms in the home and it should be planned to save time and energy for those who work in it. A well planned kitchen can prevent hazards that might cause fatal accidents and at the same time it can also provide a pleasant environment for family members.

A Good Introduction :-

Depict the significance (importance) of the study - why was this value doing in any case? Give a wide connection. Extremely briefly depict the exploratory configuration and how it achieved the expressed destinations.

Materials

Aim – To study the factors contributing to the selection and use of modular kitchens in Bangalore City.

A Good Materials :-

Materials may be accounted for in a different passage or else they may be distinguished alongside your systems. In biosciences we habitually work with arrangements - allude to them by name and portray totally, including convergences of all reagents, and pH of watery arrangements, dissolvable if non-fluid.

Result

A majority of the respondents that is 40 % were in the age group of 30-40 years, 28% in the age group of 40-50 years and 17% in the age group of 20-30 years. About 15 % were above 50 years.

A Good Result :-

Abridge your discoveries in content and show them, if fitting, with figures and tables. In depict each of your outcomes, guiding the per user toward perceptions that are generally significant.

Conclusion

Modular kitchens are the current trends in kitchen designs and offer a wide variety in brands, designs and cost. They are attractive in appearance, easy to maintain, easily accessible optimize space and are highly efficient in terms of saving time and energy.

A Good Conclusion :-

You may propose future headings, for example, how the analysis may be adjusted to achieve an alternate target. Clarify the majority of your perceptions however much as could be expected, concentrating on systems.

REVIEWER COMMENTS

- This was a superb give an account of extremely intensive examination.
- The writing audit was careful, the approach was carefully exhaustive and fused the utilization of sufficient quantities of tests in dust size examination and blast tests.
- I discover no shortcoming at all with the routines, information examination, or conclusions.
- The work, as with all work advancing from this specific gathering, is generally sound.
