ABSTRACT

Mystery writing has become the most popular form in the literary world. Mystery is used as synonym for detective fiction or crime fiction. These novels are very fast-paced, thriller set and engaging mixture of murder mystery. In mystery writings there are many codes and puzzles used by the writers. Suspense is created by the characters. Main character or protagonist of the novel is detective and he solves the mystery and reveals the truth in front of the reader.

Introduction

The Da Vinci Code is a mystery-detective novel by Dan Brown in 2003. The novel sold over 80 million copies worldwide and became best seller novel in 2009. It translated in 44 languages. This novel gave fame and popularity to Dan Brown.

A Good Introduction :-

Give a method of reasoning. State your particular hypothesis(es) or objective(s), and depict the thinking that drove you to choose them. Extremely briefly depict the exploratory configuration and how it achieved the expressed destinations.

Materials

For the present study emphasis will be laid on a close reading of the primary and secondary data. The secondary data has been collected from various references which already existed in published form; all available papers and books.

A Good Materials :-

Materials may be accounted for in a different passage or else they may be distinguished alongside your systems. In biosciences we habitually work with arrangements - allude to them by name and portray totally, including convergences of all reagents, and pH of watery arrangements, dissolvable if non-fluid.

Result

Must add result in your article.

A Good Result :-

Results are as per aims and objective and useful to further research.

Conclusion

This novel has excellent story line, writer has successes in catching the readers mind. This story is a combination of murder mystery and thriller set in the modern day and a secret society's background, this society worships the sacred feminine and sex rituals. The plot keeps readers attention and Brown presented much historical accuracy.

A Good Conclusion :-

Exploration papers are not acknowledged if the work is inadequate. Make what inferences you can based upon the outcomes that you have, and regard the study as a completed work.

REVIEWER COMMENTS

- The writing audit was careful, the approach was carefully exhaustive and fused the utilization of sufficient quantities of tests in dust size examination and blast tests.
- I discover no shortcoming at all with the routines, information examination, or conclusions.
- The work, as with all work advancing from this specific gathering, is generally sound.
