ABSTRACT

Indian economy is agro-based and agriculture is its mainstay as it constitutes the backbone of the rural livelihood security system. Agriculture has been and still continues to be the life line of the Indian economy since economic security is essentially predicted upon the agricultural and allied sectors. The agriculture sector encompasses crop production, animal husbandry, fisheries, agribusiness, etc. Crop production depends upon crucial inputs such as good seeds, fertilizers, pesticides, irrigation, human labour, machinery and management.

Introduction

Irrigation project are main part of development because of dam available water for industry and agriculture sector. Cotton, also known as 'white gold', dominates India's cash crops, and makes up 65 per cent of the raw material requirements of the Indian textile industry. In the thirteenth century, the Mongol-Tartar dynasty brought cotton to China from India.

A Good Introduction :-

Depict the significance (importance) of the study - why was this value doing in any case? Give a wide connection. Extremely briefly depict the exploratory configuration and how it achieved the expressed destinations.

Materials

The required information has been collected with help of published books, Journals, Reports, Books, News papers and Internet.

A Good Materials :-

Materials may be accounted for in a different passage or else they may be distinguished alongside your systems. In biosciences we habitually work with arrangements - allude to them by name and portray totally, including convergences of all reagents, and pH of watery arrangements, dissolvable if non-fluid.

Result

Must add result in your article.

A Good Result :-

Results are as per aims and objective and useful to further research .

Conclusion

Cotton production and marketing provides income to the farmers as well as income to the country, textile industries development largely depended on cotton production hence, more facilities should be provided to cotton production such as BT cotton, Irrigation, Bio-fertilizers etc.

A Good Conclusion :-

Choose if the trial outline satisfactorily tended to the speculation, and whether it was legitimately controlled. Attempt to offer option clarifications if sensible options exist.

REVIEWER COMMENTS

- This was a superb give an account of extremely intensive examination.
- The writing audit was careful, the approach was carefully exhaustive and fused the utilization of sufficient quantities of tests in dust size examination and blast tests.
- I discover no shortcoming at all with the routines, information examination, or conclusions.
