A Good Introduction :-

Depict the significance (importance) of the study - why was this value doing in any case? Give a wide connection. Extremely briefly depict the exploratory configuration and how it achieved the expressed destinations.

Materials

The present study requires considerable amount of data. Keeping in mind, the purpose of the study, the researcher found that the appropriate way of collecting data was by personal interview which is primary method of data collection.

A Good Materials :-

Materials may be accounted for in a different passage or else they may be distinguished alongside your systems. In biosciences we habitually work with arrangements - allude to them by name and portray totally, including convergences of all reagents, and pH of watery arrangements, dissolvable if non-fluid.

Result

Must add result in your article.

A Good Result :-

Results are as per aims and objective and useful to further research .

Conclusion

Must add Conclusion in your article.

A Good Conclusion :-

Thus, the research have wider scope for new academician and research scholars.

REVIEWER COMMENTS

- My remarks here are concerned singularly with the association of the composition.
- Thought of these focuses will, I accept, lead to an enhanced report that better shows the key ideas and conclusions.
- Generally, this is a reasonable, brief, and elegantly composed original copy.
- The presentation is pertinent and hypothesis based.
