ABSTRACT

Semester System at university stage is not only an examination system rather an education system whose primary concern is learning instead of centred instead teaching centre. This study is aimed to examine the attitude of university students towards Semester System and study the problems faced by students in new semester system along with the analysis of the curriculum of University stage. The investigator randomly selected a total number of 11 Departments for the study that included Arts, Science and Commerce students.

Introduction

In the scientific age of today, the explicit progress and prosperity of man both in terms of material and intellect has put forward a challenge to the educational institutions. Education is both acquisition of knowledge and experience as well as the development of skills, habits and attitudes which help a person to lead a full and worthwhile life in this world.

A Good Introduction :-

Depict the significance (importance) of the study - why was this value doing in any case? Give a wide connection. Extremely briefly depict the exploratory configuration and how it achieved the expressed destinations.

Materials

In the present study descriptive survey method was employed. The sample of study consists of university students of different streams and gender. A total of 225 students who are studying in various departments were randomly selected in a simple random technique.

A Good Materials :-

Materials may be accounted for in a different passage or else they may be distinguished alongside your systems. In biosciences we habitually work with arrangements - allude to them by name and portray totally, including convergences of all reagents, and pH of watery arrangements, dissolvable if non-fluid.

Result

Must add result in your article.

A Good Result :-

Results are as per aims and objective and useful to further research .

Conclusion

- 1.No difference in the attitude of university students (i.e. boys and girls) towards semester system is seen.
- 2.The university students studying in different streams (i.e. Arts, Commerce & Science) do not differ in their attitude towards semester system.

A Good Conclusion :-

Clarify the majority of your perceptions however much as could be expected, concentrating on systems.

REVIEWER COMMENTS

- My remarks here are concerned singularly with the association of the composition.
- Thought of these focuses will, I accept, lead to an enhanced report that better shows the key ideas and conclusions.
- Generally, this is a reasonable, brief, and elegantly composed original copy.
- The presentation is pertinent and hypothesis based.
