ABSTRACT

The scheduled castes are most backward since immemorial years. As such, as per the provisions of Indian Constitution and Government welfare schemes, they are encouraged in terms of education, employment and such other schemes so as to get socio-economic status in society. Still, it is observed that the scheduled castes are backward, especially in backward areas like Aland taluka in Gulbarga district. To look into socio-economic conditions of scheduled castes, a survey based on interviews was made in Aland taluka.

Gulbarga University, Kalaburagi , Karnataka.**

Introduction

The terms 'Dalits', 'Shudras', 'Scheduled Castes', 'Mlechchas', 'Chandals', etc are used synonymously to mean scheduled castes in India. There is also confusion, as many authors have stated that the untouchables or Dalits were belonged to 'Shudras', while few of the authors writes that the Dalits were not belong to any of the groups including 'Shudras' and are outcastes.

A Good Introduction :-

Depict the significance (importance) of the study - why was this value doing in any case? Give a wide connection. Extremely briefly depict the exploratory configuration and how it achieved the expressed destinations.

Materials

The author searched for relevant theoretical information sources from books and research journals including statistical reports. Based on theoretical background, interview schedule was designed. Totally 400 scheduled caste people living in rural areas and Aland town of Kalaburagi district were interviewed to collect the primary data.

A Good Materials :-

Depict materials independently just if the study is complicated to the point that it spares space thusly. Incorporate specific chemicals, organic materials, and any gear or supplies that are not generally found in research centers.

Result

Must add result in your article.

A Good Result :-

Results are as per aims and objective and useful to further research .

Conclusion

It is observed from the present study that though Government has extended welfare schemes and facilities for the scheduled castes, still majority of the scheduled castes are backward and even they are still facing the caste based evils such as discrimination, alienation, atrocities, etc.

A Good Conclusion :-

You may propose future headings, for example, how the analysis may be adjusted to achieve an alternate target. Clarify the majority of your perceptions however much as could be expected, concentrating on systems.

REVIEWER COMMENTS

- Thought of these focuses will, I accept, lead to an enhanced report that better shows the key ideas and conclusions.
- Generally, this is a reasonable, brief, and elegantly composed original copy.
- The presentation is pertinent and hypothesis based.
- Sufficient data about the past study discoveries is displayed for perusers to take after the present study method of reasoning and strategies.
