ABSTRACT

In the present study the researcher has attempted to study the effectiveness of methods used for modification of problem behaviour of mentally challenged children. The investigation was carried out on 15 mentally challenged children of Awwa Asha School, Ambala Cantt. The investigation was done by using Mehta et al's methods for modifications of problem behaviour in mentally challenged children. The findings of the study showed that, these methods were very useful for mentally challenged children.

GOLDEN RESEARCH THOUGHTS

Introduction

A person is considered to be mentally challenged, if his mental retardation refers to sub average general intellectual function, which originates during the development period and is associated with impairment in adaptive behaviour.

A Good Introduction :-

Depict the significance (importance) of the study - why was this value doing in any case? Give a wide connection. Extremely briefly depict the exploratory configuration and how it achieved the expressed destinations.

Materials

Must add methods and materials in your article.

A Good Materials :-

Methods & Materials used to per research topic.

Result

Must add result in your article.

A Good Result :-

Results are as per aims and objective and useful to further research.

Conclusion

In the light of findings of the present study the following major conclusions have been drawn.

1. There was a significant difference in the level of intensity of problem behaviour of mentally challenged children after having used methods for modification of problem behaviour.
2. There was a significant difference in the level of frequency of problem behaviour of mentally children after having used methods for modification of problem behaviour.

A Good Conclusion :-

You may propose future headings, for example, how the analysis may be adjusted to achieve an alternate target. Clarify the majority of your perceptions however much as could be expected, concentrating on systems.

REVIEWER COMMENTS

- My remarks here are concerned singularly with the association of the composition.
- Thought of these focuses will, I accept, lead to an enhanced report that better shows the key ideas and conclusions.
- Generally, this is a reasonable, brief, and elegantly composed original copy.
- The presentation is pertinent and hypothesis based.
