A. Ganesan

ABSTRACT

The traditional knowledge of people including reliable ethnomedicinal expertise in the native plants used for the preparation of drugs and administration were documented. The information was collected through questionnaire as well as informal personal interviews during field trips were carried out in the study area totaling 70 days during June 2014 - Feb. 2015. Rare medicinal plants survey was carried out to collect the information about the medicinal plants found in Nagamalai Hill and used by the native of around the hills people.

Designation:-**Principal Investigator (UGC-MRP), Assistant Professor, Department of Botany, .M.S.S.Vellaichamy Nadar College, Nagamalai, Madurai, Tamil Nadu, India.**

Introduction

According to the WHO, over 80% of the world population relies on traditional forms of medicine, largely plant based to meet primary health care needs (de silva,1997;Mukarjee and Wahil,2006). In India has the second tribal population in world.

A Good Introduction :-

Depict the significance (importance) of the study - why was this value doing in any case? Give a wide connection.

Materials

Ethno medicinal traditional experts having practical knowledge of plants in medicine were interviewed. An ethno medicinal records collected field trips was performed seventy days during June 2014 - Feb 2015 at areas of Nagamalai Hills in Madurai District, Tamil Nadu.

A Good Materials :-

Materials may be accounted for in a different passage or else they may be distinguished alongside your systems.

Result

List of medicinal plants used by in and around local people of Nagamalai hill

A Good Result :-

Abridge your discoveries in content and show them, if fitting, with figures and tables. In content, depict each of your outcomes, guiding the per user toward perceptions that are generally significant.

Conclusion

Conservation of the five elements - land, water, air, fire and space - has an intrinsic value to the existence of mankind. Each of these elements manifests themselves in the varied flora and fauna around us. It is through recognising the value of environment, the awareness to conserve the same that we can secure our future.

A Good Conclusion :-

You may propose future headings, for example, how the analysis may be adjusted to achieve an alternate target

REVIEWER COMMENTS

- The work, as with all work advancing from this specific gathering, is generally sound.
- My remarks here are concerned singularly with the association of the composition.
- Thought of these focuses will, I accept, lead to an enhanced report that better shows the key ideas and conclusions.
- Generally, this is a reasonable, brief, and elegantly composed original
