Introduction

Literacy is a fairly relevant index of the socio- economic development of a region. The Variations in literacy many times indicate, the place of which a society is getting transformed. A level of literacy influences to a significant extent, the socio-economic development of a region.

A Good Introduction :-

Depict the significance (importance) of the study - why was this value doing in any case? Give a wide connection. Extremely briefly depict the exploratory configuration and how it achieved the expressed destinations.

Materials

The study is based on secondary data, collected from census publications, covering the period from 1991 to 2011. The collected statistic of population has been processed and tabulated and percentage method is used to study the literacy pattern.

A Good Materials :-

Depict the methodology totally, including such specifics as temperatures, hatching times, and so forth. To be succinct, present strategies under headings gave to particular methods or gatherings of techniques

Result

Must add result in your article.

A Good Result :-

Results are as per aims and objective and useful to further research .

Conclusion

There has been tremendous improvement in the rate of male and female literacy. After the independence of country, the preference has been provided by the Government to primary education both for male and female.

A Good Conclusion :-

Clarify the majority of your perceptions however much as could be expected, concentrating on systems. Choose if the trial outline satisfactorily tended to the speculation, and whether it was legitimately controlled.

REVIEWER COMMENTS

- Thought of these focuses will, I accept, lead to an enhanced report that better shows the key ideas and conclusions.
- Generally, this is a reasonable, brief, and elegantly composed original copy.
- The presentation is pertinent and hypothesis based.
- Sufficient data about the past study discoveries is displayed for perusers to take after the present study method of reasoning and strategies.
