Introduction

Technology has transformed how information is accessed, evaluated and used in an academic and research environment. Technological capability has become critical to users seeking occupational, educational and leisure opportunities to improve the quality of their lives by expanding services for learning and access to information

A Good Introduction :-

Depict the significance (importance) of the study - why was this value doing in any case? Give a wide connection. Extremely briefly depict the exploratory configuration and how it achieved the expressed destinations.

Materials

Must add methods and materials in your article.

A Good Materials :-

Methods & Materials used to per research topic.

Result

Must add result in your article.

A Good Result :-

Results are as per aims and objective and useful to further research.

Conclusion

Must add Conclusion in your article.

A Good Conclusion :-

Thus, the research have wider scope for new academician and research scholars.

REVIEWER COMMENTS

- The work, as with all work advancing from this specific gathering, is generally sound.
- My remarks here are concerned singularly with the association of the composition.
- Thought of these focuses will, I accept, lead to an enhanced report that better shows the key ideas and conclusions.
- Generally, this is a reasonable, brief, and elegantly composed original
