GOLDEN RESEARCH THOUGHTS

Introduction

In recent years, our knowledge of primate behavior and intelligence have grown rapidly, giving new insights into the origins and nature of our own intelligence. It has been proposed that, the richness and complexity of primate social interactions have been a forcing house for the growth of primate intelligence

A Good Introduction :-

Depict the significance (importance) of the study - why was this value doing in any case? Give a wide connection. Extremely briefly depict the exploratory configuration and how it achieved the expressed destinations.

Materials

80 Male science and arts students, 80 female science and arts students were selected.

A Good Materials :-

Depict materials independently just if the study is complicated to the point that it spares space thusly. Incorporate specific chemicals, organic materials, and any gear or supplies that are not generally found in research centers.

Result

Must add result in your article.

A Good Result :-

Results are as per aims and objective and useful to further research .

Conclusion

1. Table No.1 shows, the results of social intelligence among Arts & Science, Arts is slightly higher than the male.

2. Table No.2 shows, the results of Male & Females. It shows that females have more social intelligence than the arts.

A Good Conclusion :-

Clarify the majority of your perceptions however much as could be expected, concentrating on systems. Choose if the trial outline satisfactorily tended to the speculation, and whether it was legitimately controlled.

REVIEWER COMMENTS

- The work, as with all work advancing from this specific gathering, is generally sound.
- My remarks here are concerned singularly with the association of the composition.
- Thought of these focuses will, I accept, lead to an enhanced report that better shows the key ideas and conclusions.
- Generally, this is a reasonable, brief, and elegantly composed original
