### ABSTRACT

A study was carried out on the incidence of pathogens associated with wound infections and antibiotic sensitivity of isolates. 50 consecutive wound infected cases from orthopedic department of academy of medical sciences pariyaram, Kannur was taken under study for microbiological examination of bacterial pathogens and antibiotic sensitivity of the isolates was carried. Another study was carried out on the incidence of intestinal parasites in school children of academy of medical sciences pariyaram, Kannur of age group between 3-6.

Sciences, Pariyaram, Kerala.

### **Review of the Article:**

The present study focuses on “Studies on Pathogens in Orthopedic Injuries in a Tertiary care hospital and Parasitic Index in School Children Academy of Medical Sciences, Pariyaram, Kannur, Kerala” The introduction builds a logical case and context for the problem statement. The problem statement “Studies on Pathogens in Orthopedic Injuries in a Tertiary care hospital and Parasitic Index in School Children Academy of Medical Sciences, Pariyaram, Kannur, Kerala” is clear and well articulated.

### **Abstract:**

The abstract is complete, essential details are presented. The results in the abstract are presented in sufficient and specific detail. The conclusions in the abstract are justified by the information in the abstract and the text. There are no inconsistencies in detail between the abstract and the text.

### **Reference to the Literature and Documentation:**

The literature review is up-to-date. The number of references are appropriate and their selection is judicious. The review of the literature is well integrated. Ideas are acknowledged appropriately and accurately. The material is analyzed and critically appraised.

### **Instrumentation, Data Collection:**

The development and content of the instrument are sufficiently described or referenced, and are sufficiently detailed to permit the study to be replicated

### **Population and Sample:**

The sampling procedures are sufficiently described. Subject samples are appropriate to the research question.

### **Data Analysis and Statistics:**

Data analysis procedures are sufficiently described, and are sufficiently detailed.

### **Presentation and Documentation:**

The text is well written and easy to follow. The vocabulary is appropriate. The content is complete and fully congruent.

### **Discussion and Conclusion:**

The conclusions are clearly stated; key points stand out.

### **Scientific Conduct:**

There are no instances of plagiarism. Ideas and materials of others are correctly attributed.

**Overall the study is relevant to the mission of the journal or its audience.**

**SUMMARY OF ARTICLE**

No.		Very High	High	Average	Low	Very Low
1.	Interest of the topic to the readers	✓				
2.	Originally & Novelty of the ideas		✓			
3.	Importance of the proposed ideas	✓				
4.	Timelines		✓			
5.	Sufficient information to support the assertions made & conclusion drawn	✓				
6.	Quality of writing (Organization, Clarity, Accuracy Grammer)			✓		
7.	References & Citation (Up-to-date, Appropriate Sufficient)		✓			

**FUTURE RESEARCH SCOPE:**

- 1.Manipulating bacterial cell fate: key role of surface-sensing and signal transduction
- 2.Green tea as an effective antimicrobial for urinary tract infections caused by Escherichia coli
- 3.Evidence supporting dissimilatory and assimilatory lignin degradation in Enterobacter lignolyticus SCF1
- 4.The genome of Nitrospina gracilis illuminates the metabolism and evolution of the major marine nitrite oxidizer
- 5.Vaginal chlamydial clearance following primary or secondary infection in mice occurs independently of TNF- $\alpha$

**HOW TO INCREASE API**

**Services for Associate Professor to Professor**

- Thesis convert into book.Publish in USA ..... 50 API Marks
- 15 Articles from your Ph.D thesis ..... 150 API Marks
- UGC Minor Research Project ..... 10 API Marks
- UGC Major Research Project ..... 15 API Marks
- Call for Book Chapter ..... 25 API Marks
- 5 Seminar Paper presentation (we organize) ..... 50 API Marks
