Review of the Article:

The present study focuses on Interpersonal relationship between parents and Children – A Buddhist perspective. The introduction builds a logical case and context for the problem statement. The problem statement is clear and well articulated. The variables being investigated are clearly identified and presented.

Abstract:

The abstract is not given separately, essential details must be presented in the abstract. The results in the abstract should be presented in sufficient and specific detail.

Title, Author

The title is clear and informative. The title is representative of the content and breadth of the study (not misleading). The title captures the importance of the study and the attention of the reader.

Reference to the Literature and Documentation:

The literature review is up-to-date. The number of references are appropriate and their selection is judicious. The review of the literature is well integrated. Study some additional literature for more deep study of the area under study.

Instrumentation, Data Collection:

The measurement instrument is appropriate given the study's variables; the scoring method is clearly defined. The data set is sufficiently described.

Data Analysis and Statistics

Data analysis procedures are sufficiently described, and are sufficiently detailed.

Presentation and Documentation:

The text is well written and easy to follow. The vocabulary is appropriate. For more accurate presentation of the data collected, add some figures and tables while presenting the data collected.

Scientific Conduct

There are no instances of plagiarism. Ideas and materials of others are correctly attributed.

Relevance

The study is relevant to the mission of the journal or its audience. The study addresses important problems or issues; the study is worth doing. The study adds to the literature already available on the subject. The study has generalizability because of the selection of subjects, setting, and educational intervention or materials.

SUMMARY OF ARTICLE

No.		Very High	High	Average	Low	Very Low
1.	Interest of the topic to the readers	✓				
2.	Originally & Novelty of the ideas		✓			
3.	Importance of the proposed ideas	✓				
4.	Timelines		✓			
5.	Sufficient information to support the assertions made & conclusion drawn	✓				
6.	Quality of writing (Organization, Clarity, Accuracy Grammer)			✓		
7.	References & Citation (Up-to-date, Appropriate Sufficient)		✓			

FUTURE RESEARCH SCOPE:

1. Survey and assessment of nutritional status in districts not covered under Annual Health survey.
2. Study of Delhi or other metropolitan city as a "Safe City for Children", to identify weak and strong points and help address gaps;
3. Efficacy of supplementary food nutrition distribution through SHGs/Mahila Mandals
4. Data on children in need of protection.
5. Study on understanding of parents and households for Early Childhood Development.
