REVIEW OF THE ARTICLE

Socio - Economic Conditions Of Construction Workers In Urban Informal Sector: A Case Study Of Bellary District In Karnataka

Ramakrishna. B

ABSTRACT:

The TITLE matches with the contents of the paper Unorganised or informal sector constitutes a pivotal part of the Indian economy. More than 90 per cent of workforce and about 50 per cent of the national product are accounted for by the informal economy. A high proportion of socially and economically underprivileged sections of society are concentrated in the informal economic activities. The present study focuses its attention on the profiles, working conditions and employment and the economic correlates of the status of the life of the construction workers in Bellary city.

INTRODUCTION:

The introduction provides a good, generalized background of the topic that quickly gives the reader an appreciation Unorganised or informal sector constitutes a pivotal part of the Indian economy. More than 90 per cent of workforce and about 50 per cent of the national product are accounted for by the informal economy. A high proportion of socially and economically underprivileged sections of society are concentrated in the informal economic activities. The high levels of growth of the Indian economy during the past two decades are accompanied by increasing informalisation. There are indications of growing interlinkages between informal and formal economic activities.

METHODOLOGY:

The present study was exclusively realized on secondary data sources. It was purely descriptive type of research since it describes the facts relating to the problem. The study was conducted in Bellary district. This study was primarily based on the information obtained from primary sources with the help of a pre tested schedule. A simple random sampling technique adopted to select the respondents from construction sites.

PRESENTATION OF RESULTS:

The amount of data presented was sufficient and appropriate The workers of informal sector in Bellary city are generally engaged in satisfying regular human wants and capital generating activities like construction. There is a dearth of literature on the status and working conditions of construction workers in Bellary city.

REFERENCES:

Prior publication by the author(s) of substantial portions of the data or study was appropriately acknowledged.

RELEVANCE:

The study was relevant to the mission of the journal or its audience. The study addresses important problems or issues; the study was worth doing.
