REVIEW OF THE ARTICLE

Psychological Health Of Early Adolescents Living In Persistent Poverty In Doda District Of Jammu And Kashmir State.

Anita Kumari¹ and Prof. Neeru Sharma²

ABSTRACT:

The problem statement was clear and well articulated Adolescence is the period of transition from childhood to adulthood, a period of rapid Biological, Emotional and Cognitive changes and living in poverty can have profound impact on Physical and Psychological health. Poverty is highly related to increased risks of negative health outcomes for young children and adolescents.

INTRODUCTION:

The introduction provides a good, generalized background of the topic that quickly gives the reader an appreciation Adolescence is the period of transition from childhood to adulthood, a period of rapid biological, emotional and cognitive changes, and living in poverty can have profound impact on Physical and Psychological health. Poverty is defined as lack of access to necessities such as foodstuff, shelter, and health facilities. According to Frank Gillispe (2008), 'Persistent poverty is described as a family that has remained on the poverty rolls for 3 or more census periods (30 years) (www.madisonjournaltoday.com/archieves/PS534.html).

METHODOLOGY:

This study was conceptual in nature. Author described a variable under study in detail. Multistage sampling technique was used for data collection from Doda district .Out of the 8 blocks i.e. Assar, Marmat, Bhajwah, Ghat Doda, Gundana, Thathari, Bhalessa and Bhaderwah, 2 blocks namely Assar and Bhaderwah were selected randomly and from each block only those adolescents were selected who belong to BPL families, as identified by the Department of Rural Development, Government of Jammu and Kashmir.

PRESENTATION OF RESULTS:

The amount of data presented was sufficient and appropriate. Tables, graphs, or figures were used judiciously and agree with the text Persistent Poverty is highly related to increased risks of negative health outcomes for young children and adolescents. Poverty leads to adverse health outcomes in children and adolescents such as harmful effects on learning, psychosocial development, physical health, productivity and family life.

REFERENCES:

Prior publication by the author(s) of substantial portions of the data or study was appropriately acknowledged.

RELEVANCE:

The paper is properly organized and demands appreciation. I think the paper will satisfy the interest of the readers.

FUTURE RESEARCH SCOPE:

1. online Home Science courses (http://www.emagister.in/online_home_science_courses-online-207.htm)
2. SCIENCE TOY MAKER (<http://www.sciencetoymaker.org/>)
- 40 Cool Science Experiments on the Web (<http://www.scholastic.com/teachers/article/40-cool-science-experiments-web>).

SUMMARY OF ARTICLE

| | | Very High | High | Average | Low | Very Low |
|----|--|-----------|------|---------|-----|----------|
| 1. | Interest of the topic to the readers | ✓ | | | | |
| 2. | Originally & Novelty of the ideas | | | ✓ | | |
| 3. | Importance of the proposed ideas | | ✓ | | | |
| 4. | Timelines | | | ✓ | | |
| 5. | Sufficient information to support the assertions made & conclusion drawn | ✓ | | | | |
| 6. | Quality of writing(Organization, Clarity, Accuracy Grammer) | | ✓ | | | |
| 7. | References & Citation(Up-to-date, Appropriate Sufficient) | ✓ | | | | |

Future Research Suggestions

This Article can expand further research for MINOR/MAJOR Research Project at UGC
