ABSTRACT

Education is a birthright of every citizen in a democratic society. Its potential has been realized in the context of socio-economic and political development in the society. In general sense, education is viewed as a lifelong process of growth, and as an activity which brings about changes in the social environment. Education is a process that makes a complete individual for being the resource of a nation as no nation can survive in the new millennium without developing its own

Rangia College.**

Introduction

Men and women should be able to form a judgment of their own role on economical or political issues as social individuals and it is possible only through education as education has a far-reaching influence on the nation's economic headway.

A Good Introduction :-

Depict the significance (importance) of the study - why was this value doing in any case? Give a wide connection. Extremely briefly depict the exploratory configuration and how it achieved the expressed destinations.

Materials

Two oldest universities of Assam, Gauhati and Dibrugarh universities were selected purposively as sample of the study. The investigator used the analytical and Descriptive method according to the purpose of the problem.

A Good Materials :-

Materials may be accounted for in a different passage or else they may be distinguished alongside your systems. In biosciences we habitually work with arrangements - allude to them by name and portray totally, including convergences of all reagents, and pH of watery arrangements, dissolvable if non-fluid.

Result

Must add result in your article.

A Good Result :-

Results are as per aims and objective and useful to further research .

Conclusion

It is the level of higher education at which teachers, teacher-trainers, administrators, scientists, technologists, political thinkers and policy makers are produced. In this process of developing human resources, the role of higher educational institutions is indispensable more particularly for women.

A Good Conclusion :-

Choose if the trial outline satisfactorily tended to the speculation, and whether it was legitimately controlled. Attempt to offer option clarifications if sensible options exist.

REVIEWER COMMENTS

- This was a superb give an account of extremely intensive examination.
- The writing audit was careful, the approach was carefully exhaustive and fused the utilization of sufficient quantities of tests in dust size examination and blast tests.
- I discover no shortcoming at all with the routines, information examination, or conclusions.
