K. Sivaiah

ABSTRACT

India is the largest producer of oilseeds in the world and oilseed sector occupies an important position in the agricultural economy of the country. India ranks first in the production of groundnut, second in rapeseed-mustard, and fifth in soyabean. In the present study, an attempt has been made to know the trends in area, production and productivity of Groundnut in Andhra Pradesh State and Chittoor district. Compound growth rates of area, production and productivity were estimated by appropriate semi log trend equation.

REVIEW OF THE ARTICLE

Trends In Area, Production And Productivity
Of Groundnut Crop In India

K. Sivaiah

Introduction:

India ranks first in the production of groundnut, second in rapeseed-mustard, and fifth in soyabean. In the present study, an attempt has been made to know the trends in area, production and productivity of Groundnut in Andhra Pradesh State and Chittoor district. The abstract was complete and essential details were presented. Introduction was justifying. Importance of the area under study mentioned clearly in Introduction.

Reference to the Literature and Documentation:

The literature review was up-to-date. The number of references was appropriate and their selection was justified.

Methodology:

Author has not mentioned objectives separately. This was a conceptual paper based on data collected from secondary sources.

Presentation of Results:

The amount of data presented was sufficient and appropriate. Tables or figures were used judiciously and agree with the text. Especially in drought prone district of Chittoor, the farmers are mainly depends on groundnut cultivation. Due to lack of irrigation facilities and poor alternative cropping pattern in rain fed areas like Chittoor and in other Rayalaseema districts the farmers have been cultivating groundnut crop from the last several decades.

Scientific Conduct:

There are no instances of plagiarism. Ideas and materials of others are correctly attributed. Author mentioned references according to the need of the study.

Relevance:

The study was relevant to the mission of the journal or its audience. The study was worth doing.

SUMMARY OF ARTICLE

No.		Very High	High	Average	Low	Very Low
1.	Interest of the topic to the readers	✓				
2.	Originally & Novelty of the ideas		✓			
3.	Importance of the proposed ideas	✓				
4.	Timelines			✓		
5.	Sufficient information to support the assertions made & conclusion drawn	✓				
6.	Quality of writing (Organization, Clarity, Accuracy Grammer)		✓			
7.	References & Citation (Up-to-date, Appropriate Sufficient)			✓		

FUTURE RESEARCH SCOPE:

- 1.Poor Farmers In India Boost Their Income With New Groundnut Varieties.
- 2.Peanut - History Of Crop Improvement And Evaluation Research.
- 3.Value Chain Analysis of the Groundnuts Sector in India.
- 4.Analysis of Trends in India's Agricultural Growth.
- 5.Potential Productivity and Yield Gap of Selected Crops in the Rainfed Regions of India.
