REVIEW OF THE ARTICLE

“The Effect Of Personality On The Academic Achievement Of B.Ed Trainees” A Study

Smt. Naziyasheerin M. Mudhol¹ and Dr. Raju G.²

ABSTRACT:

The problem statement was clear and well articulated This study investigated the influence of personality on academy achievements of B.ED trainees of Karnataka state . For the present study the survey method is used by the researcher. In the present study the dependent variables is academic achievement and independent variable is personality.The researcher has compared the different factor like Gender(male and female),Location(Rural and urban),types of subject(science and Arts), types of Management, social economic status(High and low).A sample of 400 trainees is selected for the study out of 400,the sample comprises 200 Male and 200 Female.

INTRODUCTION:

The introduction provides a good, generalized background of the topic that quickly gives the reader an appreciation Personality is the sum total of the behavioral and mental characteristics that are distinctive of an individual (Andrew M. Colamn, 2009, p.565). It refers to individuals' unique and relatively stable patterns of behaviour, thoughts and feelings (Robert A. Baron, 2006, p.450). The nature of individuals varies, the personality of the individuals too varies and this is the law of nature

METHODOLOGY:

Author has not mentioned any specific methodology. This study was descriptive in nature. Must add methodology in your article. Methodology used to per research topic.

PRESENTATION OF RESULTS:

The amount of data presented was sufficient and appropriate. Tables, graphs, or figures were used judiciously and agree with the text The results of the present study reflect that the male trainees lag behind female trainees it is due the autonomous nature of the boys or nurturing style of the parents .The Aided college teachers trainees have higher personality and study habits as compare to Un-aided college teacher trainees. It may due to the environment provide by the both institution.
