## The Role Of Supreme Judiciary In Current Social Transformation

Prof. Dr. Rajesh Gajanan Patil

### ABSTRACT:

The problem statement was clear and well articulated Law plays an important role in envisaging the disciplined life in a civilized society. It is a dynamic instrument in grooming the minds towards building a better society than it was yesterday. Law in collaboration with the other agents of the society in which it operates to cater those social needs which only law can feed. Therefore there is no substitute for law. It produces an orchestra in which different instruments work in unison.

### INTRODUCTION:

The introduction provides a good, generalized background of the topic that quickly gives the reader an appreciation Law is one of the forms of social science. The society and the law are very closely related to each other. The social world changes every second. These changes occur because of the contradicting views in the minds of the indigenous people. The laws that were constituted at a considerable time before cannot be made applicable in the changed scenario. Therefore changes in law bring out the positivity and brighter side of social change and shun the negativity that is still incorporated in our societies, fulfilling the social needs of the people.
